

ABATTOIR ENGINEERING

HOLEPLATES, KNIVES AND PRECUTTERS

Designed for demanding working conditions and enhanced performance, our range of holeplates, knives and precutters are built with high quality tool steels, hardened and heat treated to last. Suitable for a full range of mincing needs and made to fit all mincers and grinders.

Abattoir Engineering design and manufacture new items to customer specification and provide ongoing sharpening, conditioning and grinding.

PRODUCT RANGE INCLUDES:

- Mincer Holeplates
- Pre-Cutters
- Solid Cutters
- Dicer Blades
- Replacement Insert Blades
- Propeller Knives
- Silent Cutter Blades
